## About Me

Inquisitive Full-Stack Web Developer with a passion for continuous learning and a keen interest in exploring new technologies and the latest trends in web development. Eager and open-minded, I thrive on staying up-to-date with industry advancements. Proficient in independent work, I am committed to delivering high-quality projects. Equally adept at collaborative teamwork, I bring strong communication and problem-solving skills to contribute effectively to team projects.

## Experience

### Group Leader

KodeGo Bootcamp  
*August 2023 - November 2023*

Key responsibilities:

- Spearheaded daily operations by establishing clear goals and tactically assigning tasks to optimize team efficiency.
- Motivated and guided teams towards consistently achieving or surpassing predefined goals through regular inspiration.
- Nurtured positive team dynamics by actively engaging in collaborative problem-solving sessions, addressing error codes, and fostering an environment where team members' input is valued.

## Achievements

KodeGo Bootcamp  
*August 2023 - November 2023*

- Graduated as one of the top-performing students, showcasing exceptional dedication and proficiency in Full-Stack Web Development.
- Demonstrated leadership by successfully guiding a team through an accelerated three-day completion of the capstone project, highlighting effective project management and collaboration skills.
- Achieved recognition for belonging to the top five projects in the first month of the bootcamp, reflecting early success and proficiency in the program.
